

FACT SHEET

DHA PEDIATRICS APP

The Defense Health Agency Pediatrics App provides pediatric information for pediatricians and clinicians all in one place for quick access. The app contains resources on pediatric-specific disease guides and standard operating procedures, medical libraries, and clinical practice guidelines and algorithms. It also contains a conversion calculator, and child advocacy program information.

The app was produced by the Solution Delivery Division Web & Mobile Technology Program Management Office. WMT provides web and mobile solutions to the Defense Health Agency within the Department of Defense, and also the Department of Veterans Affairs.

Key Features

- ▶ Organized by health care center
- ▶ Provider directory for each of the listed health care centers

Key Benefits

- ▶ Links to the antimicrobial stewardship app
- ▶ Easy access to site specific directories
- ▶ Provides information on vaccine schedules
