

# FACT SHEET

## MED365 SharePoint Online

**MED365 SPO is a web-based collaborative platform that offers many new features in support of over 200,000 medical support staff, including enhanced security options tailored to administrative practices.**

MED365 SPO can be accessed from any device, and lets users share documents and files with others in the organization. Anyone with an internet connection can access these files from anywhere. Additionally, users without internet access (offline) can work on content and sync their files once online.

### Key Features

- ▶ A modern personal cloud storage experience
- ▶ Improved file-sharing capabilities
- ▶ Supports mobile browsers
- ▶ Simpler navigation and commands

### Key Benefits

- ▶ Enhances collaboration through shared document editing and storage
- ▶ Secure cloud document storage reduces the risk of losing data and provides easy remote access
- ▶ Simplifies remote work or collaboration with geographically separated teams using expanded collaboration tools
- ▶ Provides improved reliability and network access
