**c. Describe the purpose of this DoD information system or electronic collection and describe the types of personal information about individuals collected in the system.**

The Siemens Syngo Via AA (Syngo Via) VB.30 is a software and hardware based system that interfaces with other Siemens devices or systems with the Syngo VIA used for viewing, manipulating, or storing medical imaging information containing Protected Health Information/Personally Identifiable Information (PHI/PII). The Syngo VIA can transmit the imaging information to the local Picture Archiving and Communication System (PACS) instance or to other Radiology or Laboratory Information Systems (RIS or LIS) for further processing or long term archiving. Syngo VIA supports interpretation and evaluation of examinations within healthcare institutions, for example in Radiology, Nuclear Medicine, and Cardiology environments. Syngo VIA populates a context-specific report based on findings and snapshots created and/or verified by the clinical user.

The Personally Identifiable Information (PII) collected may include demographic information and PHI. PII is collected on active duty military and dependents.

**d. Why is the PII collected and/or what is the intended use of the PII?** (e.g., verification, identification, authentication, data matching, mission-related use, administrative use)

The PII is collected to match the individual with his/her medical diagnostic reports, ensure accuracy when these reports are integrated in the medical records for that individual and for mission-related purposes to support the delivery of health care services.

**e. Do individuals have the opportunity to object to the collection of their PII?**  Yes  No

- (1) If "Yes," describe the method by which individuals can object to the collection of PII.  
(2) If "No," state the reason why individuals cannot object to the collection of PII.

Individuals do not have the opportunity to object to the collection of their PII because Syngo Via is not the initial point of collection.

**f. Do individuals have the opportunity to consent to the specific uses of their PII?**  Yes  No

- (1) If "Yes," describe the method by which individuals can give or withhold their consent.  
(2) If "No," state the reason why individuals cannot give or withhold their consent.

Individuals do not have the opportunity to consent to specific uses of their PII because Syngo Via is not the initial point of collection.

**g. When an individual is asked to provide PII, a Privacy Act Statement (PAS) and/or a Privacy Advisory must be provided.** (Check as appropriate and provide the actual wording.)

- Privacy Act Statement  Privacy Advisory  Not Applicable

Siemens Syngo Via does not collect PII directly from individuals. Therefore, no Privacy Act Statement or Privacy Advisory is required.

**h. With whom will the PII be shared through data/system exchange, both within your DoD Component and outside your Component?**
