**Subject:** Viagra

Richard Martel, first of all I am a retired Marine of thirty years of service to this great country, I had prostate cancer due to agent orange. Please do not stop putting VIAGRA in the inventory of medicines for military men active and retired.

I have tried other similar products but VIAGRA is the only one that I trust. I am on tricare and will be on tricare for life next month on my 65th birthday.

There are a lot of men in the prostate cancer support group that I am in, in Jacksonville, NC that swear by this great product, PLEASE DO NOT LET US VETS DOWN:
