Keep DEERS Information Up To Date

Being able to use TRICARE depends on keeping DEERS up to date. Update DEERS after you have a life event, like getting married or divorced, moving, giving birth, adopting a child, retiring, and other changes.

Go to an ID card office. Search at <https://idco.dmdc.osd.mil/idco>.

Note: You must use this option to add family members in DEERS.

Log on to <https://milconnect.dmdc.osd.mil>.

Call 1-800-538-9552.

Fax 1-800-336-4416.

- The Defense Enrollment Eligibility Reporting System, or DEERS, is a database of service members and dependents worldwide who are eligible for military benefits, including TRICARE.
 - Your TRICARE eligibility shows up in DEERS based on the sponsor's status. To maintain your eligibility, you must update DEERS after any life event. If you don't, you may miss important information and enrollment deadlines. This could mean you lose access to care. A life event can include getting married or divorced, moving, giving birth, adopting a child, or retiring.
 - Register in DEERS through the milConnect website at <https://milconnect.dmdc.osd.mil>.
 - The milConnect website is the Defense Manpower Data Center's online portal that provides access to DEERS information.
 - Information can also be updated by phone, fax, or by visiting a Uniformed Services ID card-issuing facility.
 - When making changes, proper documentation, such as a marriage certificate, divorce decree, birth certificate, and/or adoption papers, is required.
- Note:** Only sponsors or sponsor-appointed individuals with valid power of attorney can add a family member. Family members aged 18 and older may update their own contact information.
- Remember, providers are legally permitted to copy military and dependent ID cards to verify TRICARE eligibility.
 - For more information, visit www.tricare.mil/deers.

Active Duty Dental Program

- Most active duty service members (ADSMs) receive dental care from their military dental clinic, also known as a military dental treatment facility.
- Civilian dental care is available to eligible ADSMs through the Active Duty Dental Program (ADDP), administered by United Concordia Companies, Inc. (United Concordia).
- ADDP is available worldwide in two service areas:
 - CONUS (Continental United States)
 - OCONUS (Outside the continental United States)
- For more information, visit the United Concordia website at www.addp-ucci.com.

- Active duty service members, including National Guard and Reserve members called or ordered to active duty for more than 30 days for a federal preplanned mission or in support of a contingency operation, automatically receive TRICARE dental benefits.
 - You get most of your dental care from a military dentist at a military dental clinic, also known as military dental treatment facility. You can visit your base website or check with your command unit to find a dental clinic.
- In certain circumstances, an ADSM may be eligible for civilian dental care through the Active Duty Dental Program, or ADDP. United Concordia Companies, Inc., or United Concordia, administers the ADDP in two geographic service areas:
 - CONUS (Continental United States). The ADDP CONUS service area includes the 50 United States, the District of Columbia, and the U.S. territories of American Samoa, Guam, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands.
 - OCONUS (Outside the continental United States). The ADDP OCONUS service area includes all other countries, island masses, and territorial waters outside the ADDP CONUS service area.
- Within the CONUS service area, those eligible to receive dental care through ADDP include:
 - ADSMs who live and work (duty location) more than 50 miles from a military dental clinic in the service area
 - National Guard and Reserve (NGR) members called or ordered to active duty for more than 30 days for a preplanned mission or a contingency operation. For NGR members, ADDP eligibility begins only when orders are received for greater than 30 days
 - Certain others, including foreign forces members, based on a reciprocal health care agreement
- Within the OCONUS service area, those eligible to receive dental care through ADDP include:
 - ADSMs who are enrolled in TRICARE Prime Remote Overseas
 - Certain National Guard and Reserve members called or ordered to active duty for more than 30 days for a preplanned mission or a contingency operation. For certain NGR members, ADDP eligibility begins only when orders are received for greater than 30 days
 - Certain ADSMs who require emergency dental care
- Find more information about ADDP and eligibility at www.addp-ucci.com.

Note: You must be eligible for the ADDP at the time you get dental care. If you aren't eligible, you'll be responsible for all costs related to the care you received under the ADDP.

- If you're referred by a military dentist, he or she should submit a referral to United Concordia. Once the referral is completed, your military dental clinic will decide who will make the appointment.

Note: Members of the Commissioned Corps of the U.S. Public Health Service become eligible for the Active Duty Dental Program starting July 3, 2022. All USPHS members are considered "remote" regardless of where they live and work.

- The program is available to:
 - Active duty family members
 - Selected Reserve and Individual Ready Reserve members, who are not on active duty orders, and their families
 - Transitional survivors
 - Surviving family members
- The program is available in both CONUS and OCONUS locations:
 - The TDP CONUS service area includes the 50 United States, the District of Columbia, Guam, Puerto Rico, and the U.S. Virgin Islands.
 - The TDP OCONUS service area includes areas not in the CONUS service area and covered services provided on a ship or vessel outside the territorial waters of the CONUS service area. Command-sponsorship for OCONUS coverage is not required, but costs are higher for OCONUS enrollees who are not command-sponsored.

Note: Current federal regulations prohibit enrolled family members from receiving TDP covered services in military dental clinics in TDP CONUS locations. In OCONUS locations, access to military dental clinics is based on resources and availability at that location. Contact your military dental clinic to learn what dental care they can provide to enrolled family members, so you can make an informed decision to enroll or remain enrolled in TDP when moving to TDP overseas locations.

- Note:** A cost-share is not determined by the dentist's charge, but the amount United Concordia has agreed to.
- Certain services have cost-shares based on the sponsor's pay grade.
 - The annual maximum coverage per enrollee is \$1,500.
 - After reaching the annual maximum, you'll be responsible for 100% of United Concordia's negotiated rate for all covered services.
 - TDP enrollees can go to any licensed and authorized dentist.
 - If you use a network dentist in the CONUS service area, TDP will pay the full amount for preventive and diagnostic services, which generally include your two check-ups and cleanings in a consecutive 12-month period.
 - Network dentists in the CONUS service area includes the U.S., Guam, Puerto Rico, and the U.S. Virgin Islands. Find a network dentist on the United Concordia website at www.uccitdp.com.
 - If you use a non-network dentist, you'll be responsible for the difference between United Concordia's allowance and the dentist's charge, in addition to any applicable cost-shares.
 - If you use a TRICARE OCONUS Preferred Dentist in the OCONUS service area, the dentist will charge you only the cost-share at the time of service. Find TRICARE OCONUS Preferred Dentists at www.uccitdp.com.
 - You can find more information about covered services and costs at www.uccitdp.com.

Medical v. Non-Medical Services (Adjunctive Services)

- Adjunctive dental care is dental care that is:
 - Medically necessary, integral to, and essential in the control of an otherwise-covered medical (not dental) condition
 - Required in preparation for, or resulting from, dental trauma which may be or is caused by medically necessary treatment of an injury or disease
- The TRICARE Dental Program does not cover services that are adjunctive dental care.
- Adjunctive services may be covered under the TRICARE medical benefit, even when provided by a general dentist or oral surgeon.
- Contact your TRICARE regional contractor (medical) for coverage details.

- It's important to know which dental conditions are covered by your dental benefit and which are covered by your medical benefit. Adjunctive services are medical conditions that are not covered by the TRICARE Dental Program but may be covered by your TRICARE medical coverage.
- Adjunctive dental care is dental care that is:
 - Medically necessary in the treatment of an otherwise-covered medical (not dental) condition
 - An integral part of the treatment of such a medical condition
 - Essential to the control of the primary medical condition
 - Required in preparation for, or as the result of, dental trauma, which may be or is caused by medically necessary treatment of an injury or disease
- An example of an adjunctive service would be the removal of teeth in order to treat facial trauma resulting from an accidental injury.
- The TRICARE Dental Program **does not** cover services that are adjunctive dental care. Please contact your regional medical contractor for coverage details. These are medical services that may be covered under the TRICARE medical benefit, even when provided by a general dentist or oral surgeon.
