

Airborne Hazards and Open Burn Pit Registry Wallet Card

The Airborne Hazards and Open Burn Pit Registry wallet card is intended to be printed and handed out in military hospitals and clinics and at outreach events to direct service members to learn more about the registry and to sign up. Please see printing directions for the pre-designed card below.

Printing Directions:

1. We suggest printing on Avery business card paper (10 per sheet, white). The wallet card on the following pages is fit for Avery Template 5371.
2. On your computer, open the approved Airborne Hazards and Open Burn Pit Wallet Card file and download it directly to your computer.
3. Open the box of Avery Business Cards and place the sheet into your printer as directed using the information on the package.
4. Select "Print on both sides of paper" and print a test sheet before printing your desired quantity. If your printer does not offer double-sided printing:
 - a. Print the 2nd page below (front side) first as many times as needed.
 - b. Remove the finalized printed pages with the front of the card, turn them around, and place them back in the printer appropriately to now print the back of the card.
 - c. Print the 3rd page below (back side) as many times as needed.
5. Once you remove the pages from the printer, you should see that both sides of the card have been printed on the template, and now you can punch out each card for use.
