

# DHA HEALTH SURVEILLANCE EXPLORER

## STAY INFORMED WITH THE DHA HEALTH SURVEILLANCE EXPLORER (DHA HSE)

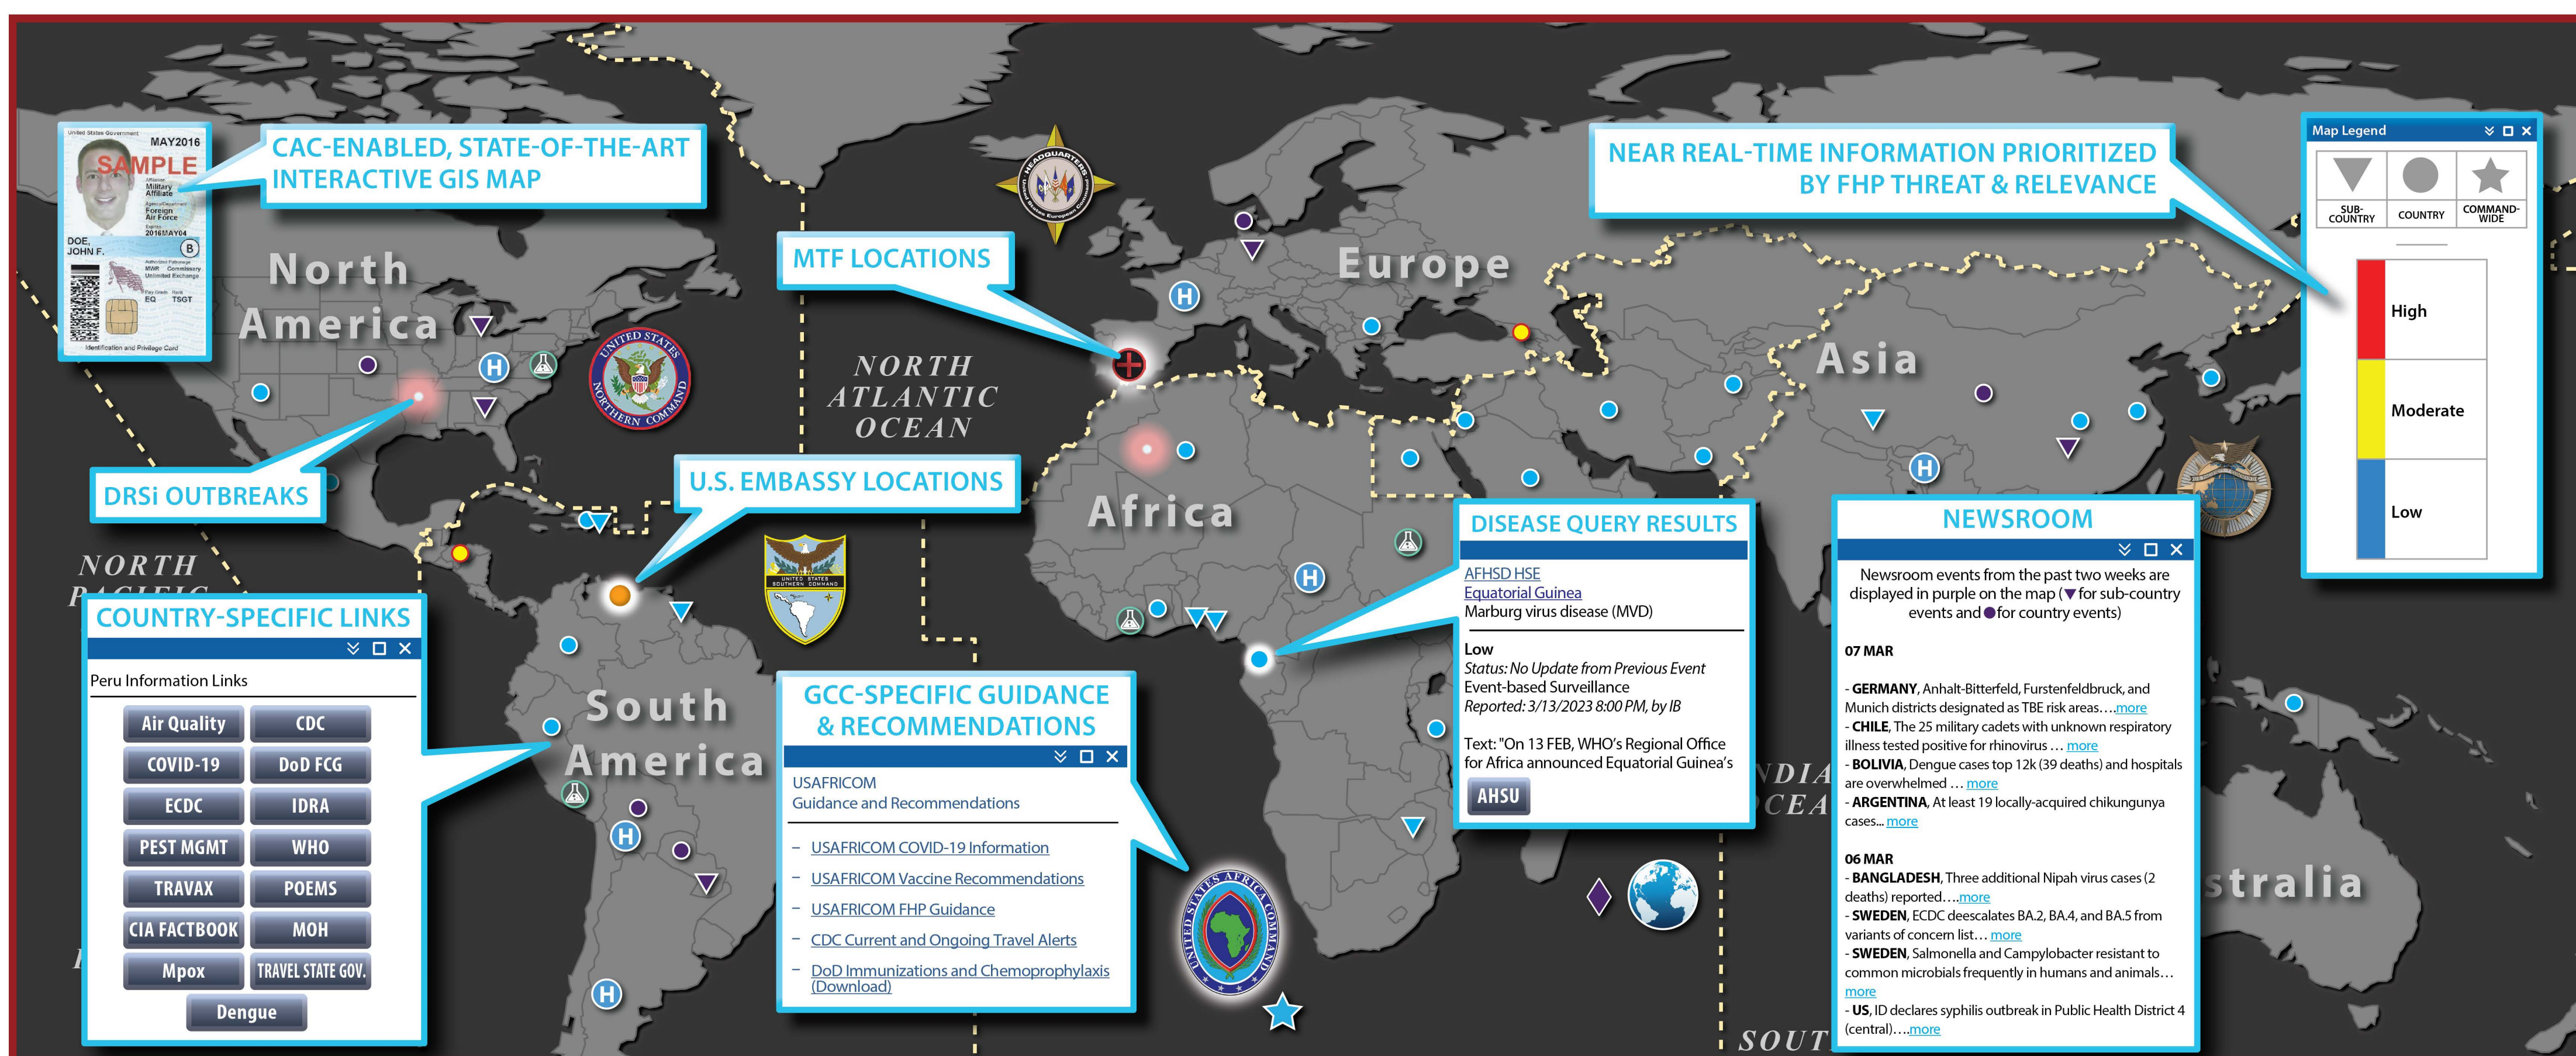

The DHA HSE is a CAC-enabled mapping application that provides near real-time integrated global health surveillance information for Force Health Protection. With the HSE, decision makers can identify, analyze, and evaluate health threats and disease outbreaks worldwide to improve operational readiness for all joint force members.

## THE HSE PROVIDES:

- ✓ Access to surveillance products including the AFHSD-IB Health Surveillance Updates, Markets to Watch, and more
- ✓ GCC and country-specific information on disease prevention recommendations
- ✓ Ability to customize view to display current health events or analyze historical trends by country, disease, or GCC
- ✓ Access to CDC Travel Notices, Travax Medical Facilities, U.S. Embassies, U.S. Department of State Travel Advisories, WHO Country Profiles, Foreign Ministries of Health, Armed Forces Pest Management Summaries, DoD Foreign Clearance Guides, Mpox Country Profiles, and more

## CURRENT DHA HSE FEATURES INCLUDE:

- Health Events/Outbreaks
- Air Quality Dashboard
- Military Exercises
- Mpox Dashboard
- Newsroom Events
- DoD and Ad-Hoc Reports
- Heat/Cold Illness Dashboard
- DRSi Outbreaks
- Disease Fact Sheets

## EMPOWER YOUR DECISION MAKERS WITH NEAR REAL-TIME INTEGRATED GLOBAL HEALTH SURVEILLANCE INFORMATION USING THE DHA HSE, THE ULTIMATE TOOL FOR FORCE HEALTH PROTECTION
