

Pain & Opioid Safety FACT SHEET

The Pain & Opioid Safety app provides education and assistance to beneficiaries suffering from chronic pain and opioid addiction, and includes resources for health care professionals and medical prescribers.

The app allows beneficiaries to review common questions and answers. They can also track their pain level between appointments and refer to the data during discussions with their providers. Medical staff can use the app to review Clinical Practice Guidelines.

This app is managed by the Solution Delivery Division Web & Mobile Technology Program Management Office.

Key Features

- FAQ section for beneficiaries
- CPGs and Naloxone administration guidance for providers

Key Benefits

- Allows beneficiaries to effectively and accurately communicate location of pain and pain levels
- Serves as an opioid training reference for providers
- Available for free download on iOS and Android devices
